DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-8, 23-28, 31, 32, 34-38, 50-54, 57, and 58, drawn to a composition of a catalyst.

Group II, claim(s) 9, 33, 39, and 59, drawn to a hydrodesulfurization process.

Group III, claim(s) 10-21, 29-30, 40-49, 55, and 56, drawn to a process of making a catalyst.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The special technical feature common to all the independent claims is the composition of the catalyst. A composition comprising a refractory inorganic oxide, a metal of group IV, and at least one metal compound of group VIII is rendered obvious by EP-199399 (See abstract; col. 1, line 44 through col. 2, line 14). Therefore, the unity does not exist between the groups of claims.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1764

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
